Notes:

I arrived at the site 2:33 p.m. The weather was partly cloudy, 66°F; wind was from the northeast 10-15 mph. I walked around the site. The vegetation on the pad sides and along the fence line was greening up and did not look impacted. The stubble in the field looked the same on the south and west sides. No further follow-up. 47.528697,-103.739550
